| Employment and Training Administration Office of Apprenticeship Training, Employer and Labor Services (OATELS) Washington, D.C. 20210 | A-541 National Office<br>A-546 All Field Tech<br>A-547 SD+RD+SAC+; Lab.Com | Subject: New Apprenticeable Occupation – Information Assurance (IA) Specialist |
| Symbols: DSNIP/WC   |  | Action: Immediate  |

**PURPOSE:** To inform the OATELS and Bureau of Apprenticeship and Training Staff (BAT)of a new apprenticeable occupation:

IA Specialist RAIS Code: 1060 O\* NET Code: 15-1071.01

Training Term: 6000 hours OJL, 1050 hours Related Instruction

Date: February 27, 2004

Note: The Office of Policy Development Evaluation and Research no longer includes the issuance of Dictionary of Occupational Title Codes.

### **BACKGROUND**:

Washington State Director Anne Wetmore, on behalf of the Naval Undersea Warfare Center, Division Keyport, WA, initiated this apprenticeability request for this occupation.

The specific requirements for completing the IT Generalist concentration are:

- 1) 6000 hrs of on-the-job learning through an approved employer sponsor,
- 2) 1050 hrs of (OJL) ILT in IT technical training as defined in the standards,

### **ACTION**:

All OATELS staff should review and retain a copy of this bulletin, including all attachments, as a source for developing apprenticeship standards and/or providing technical assistance.

#### APPRENTICEABILITY DETERMINATION FOR THE OCCUPATION:

### Information Assurance Specialist

ONET # 15-1071.01

Originally Submitted by ATELS WA State Director Anne Wetmore, May 19, 2003 Resubmitted March 11, 2004

PROGRAM SPONSOR: NAVAL UNDERSEA WARFARE CENTER
DIVISION KEYPORT, WASHINGTON

### OCCUPATION: INFORMATION ASSURANCE SPECIALIST

Definition: An information assurance specialist provides planning, analysis, development, implementation, upkeep, and enhancement of systems, programs, policies, procedures and tools to ensure the integrity, reliability, accessibility, and confidentiality of information systems and assets. It includes information assurance functions that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. An information assurance specialist also provides for the restoration of information systems by incorporating protection, detection, and reaction capability. This includes system/network protection; intrusion detection and monitoring; readiness assessments; firewall administration; security policy enforcement; risk and vulnerability assessments; security evaluations and audits; and contingency plans and disaster recovery procedures.

Three Levels of IAS Apprenticeship:

Technician I--- 2,000 hours on-the-job training plus 350 hours of related classroom Technician II-2,000 hours on-the-job training plus 350 hours of related classroom Technician III--2,000 hours on-the-job training plus 350 hours of related classroom TOTAL TERM of APPRENTICESHIP:

 $\ensuremath{\text{6,000}}$  hours  $\ensuremath{\text{OJT}}$  plus  $\ensuremath{\text{1050}}$  hours classroom and 3 Industry Certifications

### (Management IAS Levels I, II, and III - To be developed later)

This sponsor has presented their paper entitled, "Developing Information Assurance Workers through Apprenticeship" to the 2003 Colloquium for Information Systems and Security Education Conference sponsored by the Executive Branch of the US Government, Critical Information Assurance Office, National Security Agency, and others held on June 2-4, 2003.

This occupation falls both under Information Technology and Homeland Security.

This trade schedule supplement, work processes are as follows, including work process, description, competencies, and estimated hours required:

Following the trade schedule is the related instruction schedule.

## TRADE SCHEDULE FOR: INFORMATION ASSURANCE

This trade schedule supplement, work process, is attached to and a part of the Apprenticeship Standards for the above identified occupation.

During the term of apprenticeship, the Apprentice shall receive such instruction and experience, in all branches of the occupation, as is necessary to develop a practical and versatile worker. Major processes in which Apprentices will be trained (although not necessarily in the order listed) and approximate hours (not necessarily continuous) to be spent in each are as follows:

| Ir         | Information Assurance Apprentice Technician Level 1  |   |     |     |  |  |

### Appendix A

#### INFORMATION ASSURANCE - DEFINITIONS

Information Assurance (IA) - Information operations that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. This includes providing for restoration of information systems by incorporating protection, detection, and reaction capabilities.

**Availability** - Assuring information and communications services will be ready for use when expected.

**Integrity** - Assuring information will not be accidentally or maliciously altered or destroyed.

**Authentication** - Positively verifying the identity of sender and recipient of data.

**Confidentiality** - Assuring information will be kept secure, with access limited to appropriate persons.

**Non-Repudiation** - Assuring that proof of delivery is provided to the sender and proof of sender identity is provided to the recipient, so that neither can later deny having processed the information.

### **Appendix B**

Possible Job Titles for Information Assurance Apprentice Participants

#### Level 1 - Technician

Computer Security Technician Information Assurance Tester Junior Information Security Analyst Network Defense/Firewall Administration

#### Level 2 & 3 -Technician Level 1- Management

Chief Information Systems Security Engineer COOP Architect/Analyst (Continuity of Operation) Disaster Recovery Specialist Information Assurance Analyst Information Assurance Engineer Information Assurance Consultant Information Assurance System Engineer Information Forensic Engineer Information Security Engineer Information System Security Specialist Information Systems Auditor Information Systems Security Analyst Infosecurity Analyst Infosecurity Engineer Intrusion Analysis Specialist Network and Information Assurance Systems Engineer Network Defense/Firewall Administration Network Security Engineer Secure Systems Engineer Security Analyst Security Engineer Security Solutions Architect Security Specialist Technical Advisor for Continuity of Operations Support

#### Level 2 & 3 - Management

Wireless Security Engineer

Computer Systems Security Analysis Manager
Information Assurance Business Development Manager
Information Assurance Security Manager
Information Security Manager
IT Security Program Manager/Business Leader
Network Security Program Manager/Business Lead
Information Assurance Practice Manager
Security Policy Specialist/Manager
Information Assurance Policy Manager
Information Assurance Auditor
